Dominick Reilly

dreilly1@uncc.edu dominickrei.github.io dominickrei

Research Interests

My research focuses on understanding human actions in videos, specifically daily-living actions that are observed in real-world environments. I am interested in utilizing both egocentric and third person viewpoints, as well as combining multiple modalities, to accomplish my research goals.

Education

University of North Carolina at Charlotte *August 2021 - Present*
Doctor of Philosophy, Computer Science *Overall GPA:* 4.0
Advisor: Dr. Srijan Das

University of North Carolina at Charlotte *January 2019 - May 2021*
Bachelor of Science in Computer Science, Minor in Statistics *Overall GPA:* 4.0

Experience

University of North Carolina at Charlotte *August 2022 - Present*
Research Assistant - Computer Vision Lab

- Using vision transformers to understand activities of daily living videos.
- Developed strategies for learning pose-aware representations in vision transformers using RGB and pose modalities. These representations are effective for many downstream CV tasks.

University of North Carolina at Charlotte *July 2021 - July 2022*
Research Assistant - Data Privacy Lab

- Designed image obfuscation mechanisms satisfying differential privacy.
- Created a webpage demonstrating differentially private image obfuscation.
- This work was published at IEEE TPS 2021 and as a demo at EDBT 2022: http://3.223.148.187/.

Publications

Academic Activities

- Reviewer at AAAI 2023, AI4HC 2023

Awards

1. The Chateaubriand Fellowship (awarded by the Embassy of France to exceptional U.S. Ph.D. students for conducting research in France), 2023
2. Best poster award in Mathematics and Computer Science, UNC Charlotte Undergraduate Research Conference, 2020
